

# INFO NEEDED

---

Bob Schwerdt, our foreign catalog chairman, is making an inquiry in behalf of a friend who is a revenue collector. The collector is interested in learning anything he can about the following Perfins or punches on revenue stamps:

The three stamps in question, left to right, are RB13b bearing an A.W. Perfin, RB14a bearing a punched or cut-out H, and RB14a bearing a punched or cut-out K. Can any member provide information as to the user of one or more of these devices?
